1 June 2020. The Companion offers an original and inclusive review of two periods in Greek Archaeology, which are typically treated separately - the Late Bronze Age and the Early Iron Age. It presents in-depth exploration of the society and the material culture of Greece and the Mediterranean, from the 14th to the early 7th centuries BC. This two-volumes reference sets Aegean developments within their broader geographic and cultural context, and presents the wide-ranging interactions with ...

A Companion to the Archaeology of Religion in the Ancient World presents a comprehensive overview of a wide range of topics and archaeological materials relating to the practices, expressions, and interactions of religion in antiquity. Chapters are primarily focused on "lived religion"--religious experience rather than belief--in the Greco-Roman world, and take their point of departure in concepts, aspect, and empirical material relating to central themes within the archaeology of religion.

~~A Companion to the Archaeology of Religion in the Ancient ...~~

The companion bridges the gap that typically exists between Prehistoric and Classical Archaeology and examines material culture and social practice across Greece and the Mediterranean. A number of specialists examine the environment and demography, and analyze a range of textual and archaeological evidence to shed light on socio-political and cultural developments.
