C é sar cherche encore et toujours à faire dispara î tre le petit village gaulois. Cette fois-ci, il envoie Tullius D é tritus, un romain peu recommandable, qui a le don de semer la zizanie partout o ù il passe. Et effectivement, apr è s une « guerre psychologique » finement men é e, il arrive à semer la zizanie dans le petit village gaulois, en faisant notamment croire qu'Ast é rix a vendu le secret de la potion magique aux Romains contre un vase rempli de pierres pr é cieuses. Heureusement, malgr é la cr é dulit é des habitants du petit village, la sagesse d'Ast é rix et de Panoramix parviendra à retourner la calomnie contre son auteur.

À la suite d'une dispute et d'un pari stupide entre Abraracourcix et son beau-fr è re, voil à Ast é rix et Ob é lix partis à Rome : ils ont pour mission de rapporter la couronne de lauriers de C é sar pour qu'elle puisse parfumer le rago û t qu'Abraracourcix doit offrir à son beau-fr è re. La partie ne sera pas facile, car il est hors de question d'entrer dans le palais de C é sar par la force. Nos Gaulois doivent donc trouver un moyen d'y rentrer discr è tement pour en rapporter la couronne, couronne qui met une mauvaise volont é à se faire trouver.

This book takes an inductive approach to the question of whether there is a hierarchy in international law, with human rights obligations trumping other duties. It assesses the extent to which such a hierarchy can be said to exist through an analysis of the case law of national courts. Each chapter of the book examines domestic case law on an issue where human rights obligations conflict with another international law requirement, to see whether national courts gave precedence to human rights. If this is shown to be the case, it would lend support to the argument that the international legal order is moving toward a vertical legal system, with human rights at its apex. In resolving conflicts between human rights obligations and other areas of international law, the practice of judicial bodies, both domestic and international, is crucial. Judicial practice indicates that norm conflicts typically manifest themselves in situations where human rights obligations are at odds with other international obligations, such as immunities; extradition and refoulement; trade and investment law; and environmental protection. This book sets out and analyses the relevant case law in all of these areas.

When a mark acquires a reputation, it becomes a means of attracting consumers by communicating to them various messages going beyond the indication of commercial origin of goods or services. Thus, trade marks familiar to the general public enjoy a special legal protection regime above and beyond that afforded trade marks in general, allowing them to benefit from enhanced protection against reproduction or imitation detrimental to, or taking unfair advantage of, the distinctive character of the mark or its repute. This richly researched book, the first comprehensive guide to current European Union (EU) law and practice concerned with reputed trade marks, conducts an in-depth analysis of this extended protection provided by Regulation 2017/1001 on EU trade marks and Directive 2015/2436 under which it is mandatory across all Member States. Using a practical approach, focused on identifying and analysing the criteria for infringement of trade marks with a reputation in proceedings before civil courts and in administrative proceedings before the European Union Intellectual Property Office (EUIPO) or national trade mark offices, the author addresses such

elements of the special protection regime as the following: prerequisites for infringement of the right to a reputed mark common to all recognised forms of infringement; how to demonstrate each type of infringement of the right to the trade mark with a reputation (blurring, tarnishment and unfair advantage); proof of reputation; distinguishing the concept of well-known trade mark; legitimate versus questionable justifications of the 'due cause' exception within the meaning of EU law provisions; use of a disputed sign falling under freedom of expression; identifying the role of likelihood of confusion under the special regime; and how to prove the existence of a link between the signs in dispute. The author pays detailed attention to the case law of the Court of Justice and General Court of the EU, as well as cases before the EUIPO and national courts. He takes into account research from a number of Member States (plus Switzerland), thus widening prior work in the field from its predominant English-language context. With this book practitioners will confidently approach cases before courts, the EUIPO and national EU trade mark offices involving enhanced protection of trade marks with a reputation. In addition, the book will help judges and trade mark offices examiners to interpret the EU provisions and assess claims regarding such reinforced protection. For scholars and students of intellectual property law, this book will prove a cornerstone volume in the field.

This symposium brought together mechanics, physicists and applied mathematicians to discuss the interdisciplinary topic of nonlinear wave motion, which displays effects that give rise to a multitude of unanswered questions. Nonlinear waves in fluids in particular display all the prominent nonlinear phenomena such as chaos, turbulence and pattern formation. Amongst the topics emphasized in these proceedings are: travelling fronts, solitary waves and periodic waves (dissipative and conservative); temporal and spatial asymptotics of perturbations of waves; bifurcations, stability and local dynamics of waves; interaction between different waves, and between waves and the mean flow; wave breaking, nonlinear effects on focussing and diffraction; modulation and envelope equations (their derivation and validity); and numerical and experimental results.

In this special collector's edition, books 19 to 21 are brought together in one fabulous volume. In *ASTERIX AND THE SOOTHSAYER*, a sinister figure arrives in the Gaulish village. Prolix claims to be a soothsayer and the villagers believe every word he says, but Asterix isn't convinced... In *ASTERIX IN CORSICA*, the Corsican chieftain, Boneywasawarriorwayayix, needs Asterix and Obelix's help to foil the evil designs of Praetor Perfidius and oppose Julius Caesar's army. In *ASTERIX AND CAESAR'S GIFT*, Legionary Tremensdelirius gets the title deeds to the Gaulish village as a bonus - then swaps them with tavern landlord Orthopaedix for a drink. But Asterix and his friends aren't keen to hand over their village!
