De Historia et Veritate Unicornis On the History and Truth

Although in its flights of fancy it arguably flouts the lineage of actual early literary sources raising the question of the existence of the unicorn (such as the Indica of Ctesias in the late 5th century B.C.E. and Pliny the Elder ' s De Historia Naturalis in the 3rd century A.D.) in which I have since developed an interest, the style of this charming and mysterious book speaks directly to an essential part of my childhood, namely my personal method of invention which intentionally ...

Magnalucius, who records his first-hand observations of unicorns along with the facts he has learned about their natural history.

A collections of stories, poems and folklore from a variety of sources about the origins and unique characteristics of the unicorn.

An illuminated manuscript setting forth the fictional fifteenth-century diary of one Magnalucius, who records his first-hand observations of unicorns along with the facts he has learned about their natural history.

The Book of the Magical Mythical Unicorn is an anthology of esoteric knowledge, myths, and legends about the most magical of beasts: the mythical unicorn. Utilizing a global lens, the authors delve into the critical importance of the timeless unicorn across multiple cultures and spiritual traditions to display the transformative energy of the

Download File PDF De Historia Et Veritate

creature and its larger effect on humanity ' s consciousness. No other mythological creature is enjoying as rapid an ascent into the public eye and consciousness as the magical unicorn. The unicorn is now a fixture in contemporary pop culture. This book explores a diverse assortment of tales about the unicorn, ranging from its presence in the Garden of Eden, its foretelling of the births of Confucius and the Buddha, its protection of India from the wrath of Genghis Khan ' s army, and its depiction within heraldry, including in the Scottish and British thrones. It features in-depth sections on the use of the unicorn ' s horn for detecting poisons and healing, the horn ' s connection to the opening of the third eye, and the unicorn ' s depictions in ancient Sumeria, Egypt, and many other early civilizations.

When their parents' seedy old motel burns

down on the same night they are visited by a strange man covered in skeleton tattoos, Cyrus, Antigone, and their brother Daniel are introduced to an ancient secret society, and discover that they have an important role in keeping it alive.

Using recent findings in self-psychology, more traditional psychology, especially Jungian, and comparative religions, this study charts the significance of paradox and picture/text discrepancy in British and American illuminated fantasy of the nineteenth and twentieth centuries. Special emphasis is given to how the work of William Blake foreshadowed future patterns.

"Explains the history, origins, theories, and various tellings of unicorns"--

We've all heard the rationale: "It doesn't matter what you believe as long as you're

Download File PDF De Historia Et Veritate

sincere." Or "All religions are pretty much the same." But are they the same? Does it matter which one you follow? In this insightful and compelling book, Michael Green invites readers into a relationship with Jesus Christ, the divine revelation and only pathway to the one true God. In a conversational style geared toward nonbelievers, Green compares Christianity, Buddhism, Islam, and other religions to help spiritual seekers navigate the multi-faith maze. "But Don't All Religions Lead to God?" is an ideal reference and evangelism tool for churches and individual Christians as well. It offers scriptural references, looks at how divergent religious traditions view salvation and eternity, and answers difficult questions such as "What about people who have never heard of Jesus?" and "How should Christians regard other religions?" In the midst of our pluralistic and tolerant culture, here is an important and convincing

argument for faith in Jesus—the only great teacher whose death and resurrection provided grace, forgiveness, and an eternity in the presence of God.

Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's Science Fiction and Fantasy Literature, 1700-1974 (Gale, 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on
