~~Drawing From Observation - brian-curtis.com~~

Book Overview. Perceptual drawing, in which one renders the physical world as it appears to an observer, is the focus of this new text for the introductory drawing course. With an emphasis on progressive skill development, Drawing from Observation offers a balanced mix of hands-on technique and perceptual theory while making a compelling argument for the long-term value of studying perception-based drawing.

~~Drawing from Observation book by Brian Curtis~~

Drawing From Observation. by Brian Curtis. This is a highly informative book about observational drawing. One of the recurring themes is the distinction between what you see (percepts) and what you know (concepts).
