The Ford 8.8- and 9-inch rear differentials are two of the most popular and best-performing differentials on the market. While the 8.8-inch differential is commonly used in late-model Mustangs, the 9-inch is the more

Download Free Free Mercury

popular and arguably
the most dominant high-
performance differential
for muscle cars, hot
rods, custom vehicles,
and race cars. Built from
1957 to 1986, the 9-inch
Ford differential is used
in a huge range of high-
performance Ford and
non-Ford vehicles
because of its rugged
construction, easy-to-set-
up design, and large

Download Free Free Mercury aftermarket support.

The 9-inch differential effectively transmits power to the ground for many classic Fords and hot rods of all types, but it is the choice of many GM muscle car owners and racers as well.

These differentials have been used extensively and proven their mettle in racing and high-performance
