The Death of Socrates is an oil on canvas painted by French painter Jacques-Louis David in 1787. The painting focuses on a classical subject like many of his works from that decade, in this case the story of the execution of Socrates as told by Plato in his Phaedo. In this story, Socrates has been convicted of corrupting the youth of Athens and introducing strange gods, and has been sentenced to die by drinking poison hemlock. Socrates uses his death as a final lesson for his pupils rather than

Plato's Account of Socrates' Death. (From the Phaedo - 115b-118b) [The character Phaedo is narrating the account of Socrates' death to his friend Echekrates.] Nothing new, Crito, said Socrates, just what I am always telling you. If you look after yourselves, whatever you do will please me and mine and you too, even if you don't agree with me now. On the other hand, if you neglect yourselves and fail to follow the line of life as I have laid it down both now and in the past, however ...

We can't know for sure, of course, but it seems that Socrates was spurred on by similar feelings, at least according to Plato's description of the final trial. In Plato's earliest dialogue, The Apology, written shortly after Socrates' execution, the student rises to his mentor's defense. He ensured that Socrates' attackers look petty and capricious, while the philosopher king appears noble, defiant and unwavering.

Plato welcomed the restoration of the democracy, but his mistrust was deepened some four years later when Socrates was tried on false charges and sentenced to death. Plato was present at the trial, as we learn in the Apology, but was not present when the hemlock (poison) was given to his master, although he describes the scene in clear and touching detail in the Phaedo.

Plato's writings are generally divided into three broad groups: the "Socratic" dialogues (written from 399 to 387), the "Middle" dialogues (written from 387 to 361, after the establishment of his Academy in Athens), and the "Later" dialogues (written in the period between 361 and his death in 347). Three of Plato's four writings concerning the last days of Socrates come from the earliest "Socratic" period: Euthyphro, the Apology, and the Crito.

Rationale. This statement relates to Socrates' understanding and attitude towards death and his commitment to fulfill his goal of investigating and understanding the statement of the Pythia (i.e. that there was no one wiser than Socrates). Socrates understood the Pythia's response to Chaerephon's question as a communication from the god Apollo and this became Socrates's prime directive, his ...

The trial and death of Socrates (469-399 BC) have almost as central a place in Western consciousness as the trial and death of Jesus. In four superb 'dialogues', Plato provided the classic account. Socrates spent a lifetime analysing ethical issues, and the Euthyphro finds him outside the court-house, still debating the nature of piety with an arrogant acquaintance. The Apology is both a robust rebuttal to the charges of impiety and corrupting young minds and a definitive defence of the philosopher's life. Later, condemned and imprisoned in the Crito, Socrates counters the arguments of friends urging him to escape. And finally, in the Phaedo, Plato shows him calmly confident in the face of death, skilfully arguing the case for the immortality of the soul. Such works, as Harold Tarrant explains in his fine introduction, are no longer regarded by scholars as direct transcriptions of real events; their power to move us-and to challenge our moral assumptions-remains undiminished.

Examines how the trial and death of Socrates has impacted the Western world throughout history.

"Symposium" gives an account of the sparkling society that was Athens at the height of her empire. The other dialogues collected here under the title "The Death of Socrates" tell the tale of how Socrates was put on trial for impiety, found guilty and sentenced to death.

Socratic dialogue is a genre of prose literary works developed in Greece at the turn of the fourth century BC, preserved today in the dialogues of Plato in which characters discuss moral and philosophical problems, illustrating a version of the Socratic method. Socrates is often the main character. This edition contains the Later dialogues (written in the period between 361 and his death in 347) consisting of Euthyphro, Apology, Crito, and Phaedo, all written by Plato. Plato (circa 424–348 BC) was a Classical Greek philosopher, mathematician, writer of philosophical dialogues, and founder of the Academy in Athens, the first institution of higher learning in the Western world. Along with his mentor, Socrates, and his student, Aristotle, Plato helped to lay the foundations of Western philosophy and science.

Shows that the dialogue in Plato's Phaedo is primarily devoted to presenting Socrates' final defense of the philosophical life against the theoretical and political challenge of religion.

Included in this volume are "Euthyphro," "Apology," "Crito," and the Death Scene from "Phaedo." Translated by F.J. Church. Revisions and Introduction by Robert D. Cumming.

Among the most important and influential philosophical works in Western thought: the dialogues entitled Euthyphro, Apology, Crito and Phaedo. Translations by distinguished classical scholar Benjamin Jowett.

At its most basic, philosophy is about learning how to think about the world around us. It should come as no surprise, then, that children make excellent philosophers! Naturally inquisitive, pint-size scholars need little prompting before being willing to consider life's "big questions," however strange or impractical. Plato & Co. introduces children--and curious grown-ups--to the lives and work of famous philosophers, from Descartes to Socrates, Einstein, Marx, and Wittgenstein. Each book in the series features an engaging--and often funny--story that presents basic tenets of philosophical thought alongside vibrant color illustrations. "Tell us, Delphic Oracle, who is the wisest man in all of Greece?" So begins The Death of Socrates. No mortal man is wiser than Socrates, who, on his daily walks through Athens, talks to all the people he meets. When the person he talks to takes himself to be very wise, Socrates asks so many questions that the person ends up admitting he knows nothing. When he runs into people who know little, Socrates sets them on the way to wisdom. But not everyone shares Socrates's love for the truth. When the people of Athens become angry with him for his ceaseless questioning, how will he find the courage to continue to speak the truth? Plato & Co.'s clear approach and charming illustrations make this series the perfect addition to any little library.

The Apology of Socrates was written by Plato. In fact, it's a defensive speech of Socrates that he said in a court noted down by Plato. The main subject of the speech is a problem of the evil. Socrates insists that neither death nor death sentence is evil. We shouldn't be afraid of the death because we don't know anything about it. Socrates proved that the death shouldn't be taken as the evil with the following dilemma: the death is either a peace or a transit from this life to the next. Both can't be called evil. Consequently, the death shouldn't be treated as evil.
