The Oxford Handbook of Business Ethics - Google Books

Business is one of the major power centres in modern society. The state seeks to check and channel that power so as to serve broader public policy objectives. However, if the way in which business is governed is ineffective or over burdensome, it may become more difficult to achieve desired goals such as economic growth or higher levels of employment.

The Oxford Handbook of Business Ethics provides a comprehensive treatment of the field of business ethics as seen from a philosophical approach. Business ethics raises many important philosophical issues. A first set of issues concerns the methodology of business ethics. What is the role of ethical theory in business ethics?

Oxford Handbook of Business Ethics - Oxford Handbooks

The Oxford Handbook of Business History provides a survey of research in business history. Business historians study the historical evolution of business systems, entrepreneurs and firms, as well as their interaction with their political, economic, and social environment. They address issues of central concern to researchers in management studies and business administration, as well as in economics, sociology, and political science; and to historians.
